WHAT IS THE PROGRAM ABOUT?

The City's Housing Rehabilitation Loan Program can provide you with an affordable way to make home improvements and repairs through zero percent (0%) interest loan to repay back to the City after 30 years.

How much can you borrow? The homeowner may borrow up to \$40,000 which addresses safety and health conditions in the home. Assistance is dependent upon availability of funds and the equity in your home.

Where does the money come from? The Program is funded from various State and Federal Community Development Block Grants.

How will the repairs be made? The building inspector and rehabilitation specialist will visit your home and determine what safety and health repairs need to be made for the protection of your family. The owner will then obtain three written bids from licensed contractors from a list of repairs to be made. The lower, qualified bidder is usually selected.

May I do my own work? No. The owner must use a licensed contractor.

Is my home inspected? Yes. The building inspector and rehab specialist look for safety and health issues and code compliance.

WHAT CAN WE FIX?

Repairs are made for health and safety problems first.

A brief list of typical problems include the following:

- Leaking Roof
- Broken door and window hardware
