

COUNCIL AGENDA: MARCH 4, 2014

SUBJECT: CHASE AVENUE PARK NAME SELECTION

SOURCE: PARKS AND LEISURE SERVICES DEPARTMENT

COMMENT: The Parks and Leisure Services Department was awarded a \$2,150,000 Statewide Park Development and Community Revitalization Program grant from the State of California Department of Parks and Recreation to construct a park on Chase Avenue. Park construction has just begun with the most recent timeline having the park completed by the end of July 2014.

Park amenities include a shaded playground with SofSurfacing, splash pad, lighted half-court basketball court, walking trail, backstop, open multi-use grass area, picnic structures and a restroom.

The time has come to select a name for the park. The two names that have thus far been mentioned as possibilities are Chase Avenue Park and Tule River Park. The 2.33 acre park is located on Chase Avenue. The north side of the park runs adjacent to the Tule River. The east trailhead of the Tule River Parkway is in the Phase III plans to be located near the northeast corner of the park. The Parks and Leisure Services Commission wasn't partial to any particular name for the park.

RECOMMENDATION: That the City Council select a name for the new park on Chase Avenue.
